CAPILANO UNIVERSITY
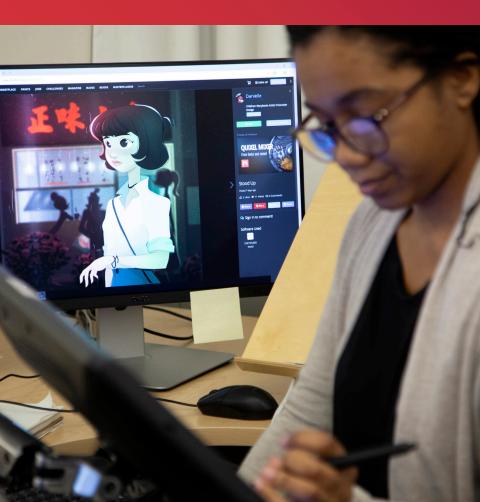

2D ANIMATION & VISUAL DEVELOPMENT DIPLOMA

BECOME AN ANIMATION ARTIST

In the 2D Animation & Visual Development diploma program at Capilano University, you're getting the training to become a creative artist whose expertise is vital in a variety of areas, including designing and animating characters, developing storyboards, creating special effects and painting digital backgrounds.

BUILD YOUR SKILLS WITH FACULTY MENTORS

You'll learn from instructors who have years of experience across in all areas of production. They'll help you grow and develop your arsenal of skills, across pre-production, production and post-production, including character drawing, production design, visual development and speed painting.

GRADUATE READY TO WORK IN TV, GAMES & FILM

As you complete your two-year diploma, you'll be building your portfolio, creating a complete representation of your artistic skill sets and abilities as an animator, perfect to help get your foot in the door in Vancouver's growing industry.
