CapU's priority is the health and safety of both students and employees. The following protocol is designed as a general best practice that can be used for workshops/classrooms returning to face to face teaching in alternative models.

NOTE: "Classroom" means: any educational space including, but not limited to, classrooms, labs, dressing rooms, studios, and workshops.

Guidelines should include, but are not limited to:

1. Entry to classrooms should be through a designated door. Hands should be sanitized at hand sanitizing station by door before entering.
2. Determine if disposable protective gloves will be made available to students and instructors (dependent on the work). The gloves are to be disposed of properly in a disposal container provided
3. Janitorial contractor will provide regular sanitation of common areas, washrooms, wash up area and entrance area as determined by the recommended frequency of cleaning information provided
4. Janitorial contractor will provide sanitation at end of each class day to impacted student/worker areas
5. Physical distancing of students with spacing between work and activity areas and clear markings or assignment of designated work and activity areas with identifying signs if appropriate
6. Students will not enter the work and activity area of another student

7. Strict protocol as to direction of flow in main traffic areas of classrooms with arrow indicators on floor
8. No student access to portions of classrooms/shops if appropriate (barrier tape)
9. Limiting students to outside and physically distanced, own vehicles or individual locations for break/lunch periods
10. Personal physical distancing of at least 2 meters will be maintained at all times between persons in the classrooms
11. A set number people will be permitted in classrooms at any given time will depend on the size of the classroom, the occupancy load of the building, the time of day, and the ability of maintaining physical distancing.
12. Students will wipe down/sanitize controls and surfaces after using any shared equipment as instructed by the Instructor. Sanitizing spray bottles, single use disposable shop cloths and disposable rubber gloves will be provided. The towels are to be disposed of properly in disposal container provided.
13. For areas involving interactions between instructor/professors and students, appropriate barriers will be determined in consultation with the Office of Health & Safety and Emergency Preparedness.
14. Students will wipe down/sanitize equipment and surfaces within their work area at the end of each session. Sanitizing spray bottles, single use disposable shop clothes and disposable rubber gloves will be provided. The towels are to be disposed of properly in the disposal container provided.

As usual, continue to practice good hand washing techniques and hygiene practices.

- Wash your hands often with soap and water for at least 20 seconds. If soap and water is not available, use an alcohol-based hand rub to clean your hands.
- Avoid touching your eyes, nose or mouth with unwashed hands.
- Cough or sneeze into your elbow or sleeve.
- Dispose of tissues appropriately.
- Avoid contact with sick people and stay at home or in your residence room if you are experiencing flu-like symptoms.
- Clean high-touch surfaces such as electronics, computer keyboards and phones frequently.
- Practice physical distancing – maintaining at least two meters distance between yourself and others.
