

## Academic Freedom

Capilano University takes a strong stand in support of Academic Freedom. The University's Senate Academic Freedom policy outlines the importance of academic freedom within a university, and how it applies to the work of all faculty in teaching, learning, research and other creative output. In addition, there is an ad-hoc Standing Committee on Academic Freedom Review which may meet to discuss additions or changes to the Academic Freedom policy of the University, to provide advice to Senate on academic freedom appeals processes, and other matters that may arise related to academic freedom.

Within the University's faculty collective agreement (CFA), there is also a letter of agreement related to the Senate Policy on Academic Freedom
