CAPILANO UNIVERSITY

Costuming for Stage & Screen Diploma

Bosa Centre for Film and Animation

Create costumes for movies, TV and theatre

Have you watched a television show or movie and marveled at the outfits and style of the actors? For two decades, the Costuming for Stage and Screen program at CapU has been training costume designers for the film, television and theatre industries. You could be next.

Develop your skills in a professional environment

Classrooms are set up as professional costume workshops, helping you grow your skills in an authentic setting. Throughout the program, you'll study cutting, construction, the history of costume, wardrobe management, textile arts, the elements of design and creating costumes for film and theatre.

Gain experience in film and stage productions

An important part of your training is getting on the job experience, including working collaboratively with your peers in theatre productions and film projects at CapU. Upon graduation, you'll be ready to start working in motion picture and theatre costuming departments.

Career paths

- Film
- Streaming
- Television
- Theatre
