

COURSE OUTLINE		
TERM: Fall 2018	COURSE NO: HKIN 112	
INSTRUCTOR:	COURSE TITLE: Health and Human Nutrition	
OFFICE: LOCAL: E-MAIL: @capilanou.ca	SECTION NO(S):	CREDITS: 3.0
OFFICE HOURS: TBD		
COURSE WEBSITE: TBD		

Capilano University acknowledges with respect the Lil'wat, Musqueam, Squamish, Sechelt, and Tsleil-Waututh people on whose territories our campuses are located.

COURSE FORMAT

Three hours of class time, plus an additional hour delivered through on-line or other activities for a 15-week semester, which includes two weeks for final exams.

COURSE PREREQUISITES

None

CALENDAR DESCRIPTION

This course is an introduction to fundamental principles related to health and human nutrition. It is intended to help students understand the foundations of digestion and the functions of nutrients. Nutritional planning and assessment in the context of national dietary recommendations, and consequences of deficient or excessive intake of nutrients will also be studied. Through this course, students will gain an understanding of how food selection can play a role in enhancing or maintaining health. Students will also develop the ability to discriminate between reliable and unreliable information about food and nutrition.

COURSE NOTE

HKIN 112 is an approved Science and Technology course for Cap Core requirements.
 HKIN 112 is an approved Science course.

REQUIRED TEXT AND OTHER RESOURCES:

Byrd-Bredbenner, C., Moe, G., Berning, J., & Kelly, D. (2016). *Wardlaw's Perspectives in Nutrition (with Connect Access Card)* (10th edition). Columbus, OH: McGraw-Hill Education.

COURSE STUDENT LEARNING OUTCOMES

On successful completion of this course, students will be able to do the following:

1. **Define** and **describe** the six categories of macronutrients their actions, interactions and balance in relation to health and disease.
2. **Explain** the impact of nutritional concerns on today's society
3. **Research** current developments in nutritional scientific research
4. **Analyze and interpret** nutritional scientific evidence and communicate findings in written and oral forms
5. **Apply** current nutritional knowledge to recognize and formulate a healthy diet

Students who complete this Science & Technology course will be able to do the following:

1. Apply numerical and computational strategies to solve problems
2. Assess the impacts of human activity on natural systems and articulate ways in which environmental sustainability may be achieved
3. Evaluate scientific information (e.g., distinguish primary and secondary sources, assess credibility and validity of information).
4. Explain how scientific inquiry is based on investigation of evidence and evolves based on new findings
5. Participate in scientific inquiry and communicate the elements of the process, including making careful and systematic observations, developing and testing a hypothesis, analyzing evidence, and interpreting results

COURSE CONTENT

WEEK	TOPIC (S)	REQUIRED READINGS/ ACTIVITIES
1	Introduction To Nutrition	Chapter 1
2	Planning A Healthy Diet The Digestive System	Chapter 2 & 4
3	Carbohydrates	Chapter 5 Dietary Analysis #1
4	Fat	Chapter 6
5	Protein	Chapter 7 Dietary Analysis #2
6	MIDTERM	
7	Energy Balance & Body Composition Obesity Treatment	Chapter 10 Dietary Analysis #3
8	Disordered Eating Physical Activity & Nutrition	Chapter 10 & 11 Dietary Analysis #4
9	Fat Soluble and Water Soluble Vitamins	Chapter 12 & 13

10	MIDTERM Water & Major Minerals	Chapter 13 Dietary Analysis #5
11	Trace Minerals Diet & Health	Chapter 15 & Selected Readings
12	Functional Foods & Nutritional Supplements Food safety, GM Foods & Organic Foods	Chapter 3 & Selected Readings Dietary Analysis #6
13	Group Presentations Course Summary	Dietary Analysis Summary
14, 15	Final Exam Period	

EVALUATION PROFILE

ASSESSMENT	% OF FINAL GRADE	INDIVIDUAL/GROUP
Dietary Analysis Project	20%	Individual
Group Presentation	10%	Group
Midterm Examination #1	20%	Individual
Midterm Examination #2	20%	Individual
Final Examination	30%	Individual
Total	100%	

The assignment structure for this course is determined by the instructor in accordance with the learning outcomes outlined above. Please refer to the course syllabus and Moodle site for a detailed breakdown.

Dietary Analysis Project: This will be a seven submission project that will span the entire term. Students record their diets over three days, and evaluate it for its macro and micro nutrient content, caloric supply, sugar and fat content, and how it fits in with national guidelines.

Group presentation: Students will select a product that has purported nutritional benefits, they will analyze the scientific evidence for these benefits and present their findings to the rest of the class.

Midterm examinations: The midterm exam will cover all material up to and including the week before the midterm. The format of the exam will be determined by the instructor and may include a combination of true/false, multiple choice, short answer, and essay questions.

Final examination: The final exam will cover all material after the second midterm, and include important concepts from the rest of the course. The format of the exam will be determined by

the instructor and may include a combination of true/false, multiple choice, short answer, and essay questions.

GRADING PROFILE

A+ = 90-100	B+ = 77-79	C+ = 67-69	D = 50-59
A = 85-89	B = 73-76	C = 63-66	F = 0-49
A- = 80-84	B- = 70-72	C- = 60-62	

Incomplete Grades

Grades of Incomplete "I" are assigned only in exceptional circumstances when a student requests extra time to complete their coursework. Such agreements are made only at the request of the student, who is responsible to determine from the instructor the outstanding requirements of the course.

Late Assignments

Assignments are due at the beginning of the class on the due date listed. Any late assignment will be penalized 10% per day unless otherwise discussed with the instructor.

Missed Exams/Quizzes etc.

Make-up exams, quizzes and/or tests are given at the discretion of the instructor. They are generally given only in medical emergencies or severe personal crises. Some missed labs or other activities may not be able to be accommodated. Please consult with your instructor.

Attendance

Regular class attendance, and participation in course activities and assignments, is expected and likely essential to successfully achieving the course learning outcomes. Students are responsible for any and all content and instructions communicated during scheduled classes, in course handouts, and (if applicable) via course e-mail and websites. In cases where participation by all students is essential for conducting the planned instructional activities, attendance may be mandatory.

English Usage

Students are expected to proofread all written work for any grammatical, spelling and stylistic errors. Instructors may deduct marks for incorrect grammar and spelling in written assignments.

Electronic Devices

Students may use electronic devices during class for note-taking and research purposes only.

On-line Communication

Outside of the classroom, instructors will (if necessary) communicate with students using either their official Capilano University email or Moodle; please check both regularly. Official communication between Capilano University and students is delivered to students' Capilano University email addresses only.

Policy Statement (S2009-06)

Capilano University has policies on Academic Appeals (including appeal of final grade), Student Conduct, Academic Integrity, Academic Probation and other educational issues. These and other policies are available on the University website.

Academic Integrity (S2017-05)

Any instance of academic dishonesty or breach of the standards of academic integrity is serious and students will be held accountable for their actions, whether acting alone or in a group. See policy S2017-05 for more information: <https://www.capilanou.ca/about-capu/governance/policies/>

Violations of academic integrity, including dishonesty in assignments, examinations, or other academic performances, are prohibited and will be handled in accordance with the Student Academic Integrity Procedures.

Academic dishonesty is any act that breaches one or more of the principles of academic integrity. Acts of academic dishonesty may include but are not limited to the following types:

Cheating: Using or providing unauthorized aids, assistance or materials while preparing or completing assessments, or when completing practical work (in clinical, practicum, or lab settings), including but not limited to the following:

- Copying or attempting to copy the work of another during an assessment;
- Communicating work to another student during an examination;
- Using unauthorized aids, notes, or electronic devices or means during an examination;
- Unauthorized possession of an assessment or answer key; and/or,
- Submitting of a substantially similar assessment by two or more students, except in the case where such submission is specifically authorized by the instructor.

Fraud: Creation or use of falsified documents.

Misuse or misrepresentation of sources: Presenting source material in such a way as to distort its original purpose or implication(s); misattributing words, ideas, etc. to someone other than the original source; misrepresenting or manipulating research findings or data; and/or suppressing aspects of findings or data in order to present conclusions in a light other than the research, taken as a whole, would support.

Plagiarism: Presenting or submitting, as one's own work, the research, words, ideas, artistic imagery, arguments, calculations, illustrations, or diagrams of another person or persons without explicit or accurate citation or credit.

Self-Plagiarism: Submitting one's own work for credit in more than one course without the permission of the instructors, or re-submitting work, in whole or in part, for which credit has already been granted without permission of the instructors.

Prohibited Conduct: The following are examples of other conduct specifically prohibited:

- Taking unauthorized possession of the work of another student (for example, intercepting and removing such work from a photocopier or printer, or collecting the graded work of another student from a stack of papers);
- Falsifying one's own and/or other students' attendance in a course;
- Impersonating or allowing the impersonation of an individual;
- Modifying a graded assessment then submitting it for re-grading; or,
- Assisting or attempting to assist another person to commit any breach of academic integrity.

Sexual Violence and Misconduct

All Members of the University Community have the right to work, teach and study in an environment that is free from all forms of sexual violence and misconduct. Policy B401 defines sexual assault as follows:

Sexual assault is any form of sexual contact that occurs without ongoing and freely given consent, including the threat of sexual contact without consent. Sexual assault can be committed by a stranger, someone known to the survivor or an intimate partner.

Safety and security at the University are a priority and any form of sexual violence and misconduct will not be tolerated or condoned. The University expects all Students and Members of the University Community to abide by all laws and University policies, including [B.401 Sexual Violence and Misconduct Policy](#) and [B.401.1 Sexual Violence and Misconduct Procedure](#).

Emergencies: Students are expected to familiarise themselves with the emergency policies where appropriate and the emergency procedures posted on the wall of the classroom.

DEPARTMENT OR PROGRAM OPERATIONAL DETAILS

Participation:

This mark, if included as part of the assessment items by the instructor, is based on both the frequency and quality of the student's comments, questions, observations, and involvement, with the emphasis on quality. The quality is determined by, among other things, the relevance, insight and clarity of remarks. Preparing the required readings will support a student's ability to participate. The participation mark is also influenced by professionalism (as described below), attitude and punctuality.

Professional Behaviour:

Students must demonstrate a professional attitude and behaviour toward work, fellow students and their instructors. Each student should demonstrate reliability, respect for and cooperation with colleagues. A willingness to work calmly and courteously under difficult conditions as well as a determination to achieve first-class work while meeting deadlines is necessary. Students should display a constructive response to criticism. Professional behaviour include appropriate language use. Appropriate language use involves using respectful, moderate, and inclusive language at all times.

Copyright Policy:

Students are expected to familiarize themselves with and abide by the University's Copyright Policy. The University's Copyright Policy is published on the University website.
