SCHOOL OF BUSINESS POLICIES:

Attendance: Regular attendance and punctuality are both essential and expected due to the nature and format of the course materials.

Professional Behaviour: Students must demonstrate a professional attitude and behaviour toward work, fellow students and their instructors. Each student should demonstrate reliability, respect for and co-operation with colleagues. A willingness to work calmly and courteously under difficult conditions as well as a determination to achieve first-class work while meeting deadlines is necessary in the Business Faculty. Students should have respect for equipment and systems. Students should display a constructive response to criticism.

English Usage: All assignments are marked for correct English usage, proofreading and formatting.

Missed Exams and Quizzes: Missed exams or quizzes will receive a grade of "0" unless PRIOR arrangements (wherever possible) are made with the instructor. Permission to make up an exam will only be given in extraordinary situations such as illness of the student or the death of a close family member. A doctor's certificate, or other proof supporting the reason for the absence, will be required. For further information, refer the "Examination & Pivotal Presentation Exemption Policy".

Examination and Pivotal Presentation Exemption Policy All students are required to appear and write their scheduled mid-term and final examinations, and to produce, by the assigned date, all pivotal presentations, individual and/or group, unless they meet one of the following criteria:

"Medical Exemption" will be considered, if:

Within the ten calendar days prior to a mid-term or final examination, or within ten days of a pivotal presentation, a student falls ill or is injured.

"Falling ill" is defined as being formally advised by a physician of the need to isolate oneself for the purpose of preventing communication of disease or infection to others; being advised by a physician of compromised immunity that requires isolating oneself from contact with others to prevent communication of disease or infection to themselves, or; being in a physical state of health which so compromises a student's ability to function, physically or cogitatively, during the ten days prior to the examination or presentation date.

“Injury”, for the purpose of Exemption, is defined as sudden, unanticipated physical harm that renders the applicant physically incapable of attending campus or, in such physical distress that the student is specifically advised by their physician to abstain from appearing at their examination or presentation. Students who are prescribed medication(s) to treat their injury and who believe that the medication(s) may be impairing their ability to successfully prepare for or write their examination or presentation may provide written evidence of their concerns as verified by their physician.

“Catastrophic Personal Loss Exemption” will be considered, if:

Events occur in the student’s life that are of such scope as to sufficiently distract a student from the examination or presentation preparation period, or from appearing at or adequately focusing on, the scheduled examination or presentation itself. This could include; loss of housing due to eviction, flood or fire; or death of an immediate family member * (defined as a sibling, parent or grandparent, child, partner or spouse, parent or step-parent, aunt, uncle, niece, or nephew and first cousins.) Immediate family member does not include general acquaintances. Circumstances that may qualify as a personal loss could also include an immediate family member being diagnosed with a significantly life-altering or life-threatening illness or injury.

In all of the above scenarios, a physician’s letter or other specifically requested documentation must be provided to satisfy the Instructor as to the validity of the claim, and must be provided within ten calendar days prior to the date of the exam or presentation. If an instructor agrees with the request for Exemption, the request for must be presented by the instructor to their Unit Convenor for consideration and his/her approval. No request for Exemption will be considered approved by virtue of submission, and will remain as merely “under consideration” until approved or rejected by the Unit Convenor. A student applying for an exemption for a specific section which is instructed by the Unit Convenor will have their application reviewed by the Vice-Chair or Chair of the School of Business.

Any student who applies for and receives an Exemption will be assigned a Future Examination or Presentation Date: this date is non-negotiable. Failure to appear on/at the single date and time assigned by the instructor will result in an automatic “0” grade for that exam or assignment. This “0” grade may not be appealed or contested, and will not be changed.

Copyright Policy:

Students are expected to familiarize themselves with and abide by the University’s Copyright Policy. The University’s Copyright Policy is published in the University website.

Cheating and Plagiarism:

Cheating is an act of deceit, fraud, distortion of the truth, or improper use of another person’s effort to obtain an academic advantage. Cheating includes permitting another person to use one’s work as their own. Plagiarism is the presentation of another person’s work or ideas as if they were one’s own. Plagiarism is both dishonest and a rejection of the principles of scholarship. Information about how to avoid plagiarism by proper documentation of sources is available in the Writing Centre and is published on the University website in the University Policies page.

Penalties for Cheating and Plagiarism:

A grade of ‘0’ for an examination, quiz or assignment or ‘F’ for the course may be assigned if cheating or plagiarism has taken place. First incidents deemed by the instructor to be particularly serious or second or subsequent incidents of cheating and plagiarism will be dealt with under the provisions of the University Policy on Cheating and Plagiarism (see the University website). All students should familiarize themselves with the University Policy on Cheating and Plagiarism as such behaviour can result in suspension from the University.

Incomplete Grades:

Incomplete grades will not be given unless special arrangements have been made with the instructor prior to the date set by University Administration.
