

COURSE OUTLINE		
TERM: Fall 2021	COURSE NO: KINE 275	
INSTRUCTOR:	COURSE TITLE: Exercise Physiology	
OFFICE: LOCAL: E-MAIL: @capilanou.ca	SECTION NO(S):	CREDITS: 3.0
OFFICE HOURS:		
COURSE WEBSITE:		

Capilano University acknowledges with respect the Lil'wat, Musqueam, Squamish, Sechelt, and Tsleil-Waututh people on whose territories our campuses are located.

COURSE FORMAT

1.5 lecture hours and 1.5 lab hours, plus an additional hour delivered through on-line or other activities for a 15-week semester, which includes two weeks for final exams.

COURSE PREREQUISITES

HKIN/KINE 191

CALENDAR DESCRIPTION

This course will explore the acute and chronic effects of exercise on body systems; specifically, cardiovascular, respiratory and muscular responses to physical activity will be examined.

COURSE NOTE

KINE 275 is equivalent to HKIN 275. Duplicate credit will not be granted for this course and HKIN 275. KINE 275 is an approved Science and Technology course for Cap Core requirements. KINE 275 is an approved Science course.

REQUIRED TEXTS AND/OR RESOURCES

Wilmore J.H., Costill D.L., & Kenney W.L. (2015). *Physiology of Sport and Exercise* (6th edition). Windsor, ON: Human Kinetics Publishers.

COURSE STUDENT LEARNING OUTCOMES

On successful completion of this course, students will be able to do the following:

1. **Describe** the acute and chronic adaptations to exercise that occur in the cardiovascular, respiratory, neuromuscular, metabolic and endocrine systems.
2. **Demonstrate** knowledge of the control mechanisms for the cardiovascular and respiratory systems.
3. **Categorize** exercise training protocols to enhance athletic performance and general health and wellness.

4. **Conduct** and **present** APA formatted lab reports.
5. **Perform** laboratory procedures that are common in exercise physiology such as submaximal exercise testing, lactate testing, etc.

Students who complete this Science and Technology course will be able to do the following:

1. Apply numerical and computational strategies to solve problems.
2. Evaluate scientific information (e.g., distinguish primary and secondary sources, assess credibility and validity of information).
3. Demonstrate how a problem, concept, or process can be modelled numerically, graphically, or algorithmically.
4. Participate in scientific inquiry and communicate the elements of the process, including making careful and systematic observations, developing and testing a hypothesis, analyzing evidence, and interpreting results.

COURSE CONTENT

WEEK	TOPIC (S)	REQUIRED READINGS/ ACTIVITIES
1	Introduction to Exercise & Sport Physiology	Introductory Chapter
	Part I: In-Depth Examination of the Systems of Exercise Physiology	
2	Introduction to the Structure & Function of Human Muscle Muscle Metabolism	Chapter 1 & 2
3	Neural Control of Exercising Muscle	Chapter 3
4	Hormonal Control of Exercising Muscle Lab 1: Anaerobic Power-Wingate Anaerobic Cycle Test	Chapter 4
5	Energy Expenditure & Fatigue Lab 2: Dynamic Strength & Power	Chapter 5
6	Cardiovascular System & it's Control	Chapter 6
7	Respiratory System & it's Regulation Lab 3: Assessment of Predicted $\dot{V}O_2$ max & Aerobic Capacity	Chapter 7
8	MIDTERM	
	Part II: Integration & Application of Exercise Physiology Systems	

9	Cardiorespiratory Responses to Acute Exercise Lab 4: Maximal Oxygen Consumption ($\dot{V}O_2$ max)	Chapter 8
10	Principles of Exercise Training	Chapter 9
11	Adaptations to Resistance Training Lab 5: Electrocardiogram & Blood Pressure	Chapter 10
12	Adaptations to Aerobic & Anaerobic Training	Chapter 11
13	Environmental Influences on Performance & Exercise	Chapter 12 & 13
14 - 15	FINAL EXAM PERIOD	

EVALUATION PROFILE

ASSESSMENT	% OF FINAL GRADE	INDIVIDUAL/GROUP
Lecture Quizzes	10%	Individual
Lab Research Project	15%	Group
Lab Reports	20%	Group
Midterm Examination	25%	Individual
Final Lab Examination	5%	Individual
Final Examination	25%	Individual
Total	100%	

The assignment structure for this course is determined by the instructor in accordance with the learning outcomes outlined above. Please refer to the course syllabus and eLearn site for a detailed breakdown.

Lecture Quizzes: This course will include a number of multiple-choice quizzes covering selected course material. Quizzes will be issued online and will have a time limit for completion.

Lab Research Project: This course will include a group research project where group members will perform a literature review on a self-selected topic. A hypothesis will guide your review of the current research available on your topic with findings presented in APA formatted paper.

Lab Reports: Lab assignments will be assigned to interpret common laboratory procedures in exercise physiology and how they relate to lecture content. Lab assignments will be due one-week after the completion of the lab class.

Midterm Exam: There will be a midterm exam covering all material up to and including the week before the midterm. The format of the exam will be determined by the instructor and may include a combination of true/false, multiple choice, fill in the blanks, short answer and long answer questions.

Final Lab Exam: The final lab exam will assess your ability to conduct assessments performed during class time. This exam will include practical application and calculations of physiological variables.

Final Written Exam: The final exam will be drawn from all lecture material and will be structured similarly to the midterm exam. The final exam may be cumulative (please consult your instructor).

GRADING PROFILE

A+ = 90-100	B+ = 77-79	C+ = 67-69	D = 50-59
A = 85-89	B = 73-76	C = 63-66	F = 0-49
A- = 80-84	B- = 70-72	C- = 60-62	

Incomplete Grades

Grades of incomplete "I" are assigned only in exceptional circumstances when a student requests extra time to complete their coursework. Such agreements are made only at the request of the student, who is responsible to determine from the instructor the outstanding requirements of the course

Late Assignments

Assignments are due at the beginning of the class on the due date listed. Any late assignment will be penalized 10% per day unless otherwise discussed with the instructor.

Missed Exams/Quizzes/Labs etc.

Make-up exams, quizzes and/or tests are given at the discretion of the instructor. They are generally given only in medical emergencies or severe personal crises. Some missed labs or other activities may not be able to be accommodated. Please consult with your instructor.

Attendance

Regular class attendance, and participation in course activities and assignments, is expected and likely essential to successfully achieving the course learning outcomes. Students are responsible for any and all content and instructions communicated during scheduled classes, in course handouts, and (if applicable) via course e-mail and websites. In cases where participation by all students is essential for conducting the planned instructional activities, attendance may be mandatory.

English Usage

Students are expected to proofread all written work for any grammatical, spelling and stylistic errors. Instructors may deduct marks for incorrect grammar and spelling in written assignments.

Electronic Devices

Students may use electronic devices during class for note-taking and research purposes only

On-line Communication

Outside of the classroom, instructors will (if necessary) communicate with students using either their official Capilano University email or eLearn; please check both regularly. Official communication between Capilano University and students is delivered to students' Capilano University email addresses only.

UNIVERSITY OPERATIONAL DETAILS**Tools for Success**

Many services are available to support student success for Capilano University students. A central navigation point for all services can be found at: <https://www.capilanou.ca/student-life/>

Capilano University Security: download the [CapU Mobile Safety App](#)

Policy Statement (S2009-06)

Capilano University has policies on Academic Appeals (including appeal of final grade), Student Conduct, Academic Integrity, Academic Probation and other educational issues. These and other policies are available on the University website.

Academic Integrity (S2017-05)

Any instance of academic dishonesty or breach of the standards of academic integrity is serious and students will be held accountable for their actions, whether acting alone or in a group. See policy and procedures S2017-05 Academic Integrity for more information: <https://www.capilanou.ca/about-capu/governance/policies/>

Violations of academic integrity, including dishonesty in assignments, examinations, or other academic performances, are prohibited and will be handled in accordance with the Student Academic Integrity Procedures.

Academic dishonesty is any act that breaches one or more of the principles of academic integrity. Acts of academic dishonesty may include but are not limited to the following types:

Cheating: Using or providing unauthorized aids, assistance or materials while preparing or completing assessments, or when completing practical work (in clinical, practicum, or lab settings), including but not limited to the following:

- Copying or attempting to copy the work of another during an assessment;
- Communicating work to another student during an examination;
- Using unauthorized aids, notes, or electronic devices or means during an examination;
- Unauthorized possession of an assessment or answer key; and/or,
- Submitting of a substantially similar assessment by two or more students, except in the case where such submission is specifically authorized by the instructor.

Fraud: Creation or use of falsified documents.

Misuse or misrepresentation of sources: Presenting source material in such a way as to distort its original purpose or implication(s); misattributing words, ideas, etc. to someone other than the original source; misrepresenting or manipulating research findings or data; and/or suppressing aspects of findings or data in order to present conclusions in a light other than the research, taken as a whole, would support.

Plagiarism: Presenting or submitting, as one's own work, the research, words, ideas, artistic imagery, arguments, calculations, illustrations, or diagrams of another person or persons without explicit or accurate citation or credit.

Self-Plagiarism: Submitting one's own work for credit in more than one course without the permission of the instructors, or re-submitting work, in whole or in part, for which credit has already been granted without permission of the instructors.

Prohibited Conduct: The following are examples of other conduct specifically prohibited:

- Taking unauthorized possession of the work of another student (for example, intercepting and removing such work from a photocopier or printer, or collecting the graded work of another student from a stack of papers);
- Falsifying one's own and/or other students' attendance in a course;
- Impersonating or allowing the impersonation of an individual;
- Modifying a graded assessment then submitting it for re-grading; or,
- Assisting or attempting to assist another person to commit any breach of academic integrity.

Sexual Violence and Misconduct

All Members of the University Community have the right to work, teach and study in an environment that is free from all forms of sexual violence and misconduct. Policy B401 defines sexual assault as follows:

Sexual assault is any form of sexual contact that occurs without ongoing and freely given consent, including the threat of sexual contact without consent. Sexual assault can be committed by a stranger, someone known to the survivor or an intimate partner.

Safety and security at the University are a priority and any form of sexual violence and misconduct will not be tolerated or condoned. The University expects all Students and Members of the University Community to abide by all laws and University policies, including B.401 Sexual Violence and Misconduct Policy and B.401.1 Sexual Violence and Misconduct Procedure (found on Policy page <https://www.capilanou.ca/about-capu/governance/policies/>)

Emergencies: Students are expected to familiarise themselves with the emergency policies where appropriate and the emergency procedures posted on the wall of the classroom.

DEPARTMENT OR PROGRAM OPERATIONAL DETAILS**Participation**

This mark, if included as part of the assessment items by the instructor, is based on both the frequency and quality of the student's comments, questions, observations, and involvement, with the emphasis on quality. The quality is determined by, among other things, the relevance, insight and clarity of remarks. Preparing the required readings will support a student's ability to participate. The participation mark is also influenced by professionalism (as described below), attitude and punctuality.

Professional Behaviour

Students must demonstrate a professional attitude and behaviour toward work, fellow students and their instructors. Each student should demonstrate reliability, respect for and cooperation with colleagues. A willingness to work calmly and courteously under difficult conditions as well as a determination to achieve first-class work while meeting deadlines is necessary. Students should have respect for equipment and systems. Students should display a constructive response to criticism. Professional behaviour includes appropriate language use. Appropriate language use involves using respectful, moderate, and inclusive language at all times.

Copyright Policy

Students are expected to familiarize themselves with and abide by the University's Copyright Policy. The University's Copyright Policy is published on the University website.
