MOTION PICTURE ARTS STANDARDS FOR PROFESSIONAL BEHAVIOUR
Professional behaviour is essential in employment situations in the film and television industry. Professional behaviour, combined with professional technical and craft skills are the essential components that directors, producers, writers, actors, cinematographers, editors, agents, funders, broadcasters and distributors consider when deciding to build a team, hire, cast or green light a project. By acknowledging this, the Motion Picture Arts program fosters professional behaviour by evaluating each student according to these standards. In all student projects, professional behaviour forms part of the mark, students will be given interim reports in order to adjust behaviour that needs improvement. These standards reflect the values of professionalism in the film and television industry and represent the expected standard of behaviour required of employment in the field. The desired behaviours are described below as "outcomes" which are followed by a list of criteria against which the student's behaviour will be measured.
