the Local Government Management Association of BC

2019 MATI MANAGING PEOPLE

This MATI course is about managing the performance of your organization, engaging your staff, and maximizing your own professional performance.

From Hire to Retire: A Roadmap for Managing Employees in Local Government

Local government organizations today have to be increasingly agile — thinking, performing, and changing continuously to meet both the ever-changing needs of the external community and the internal community of its diverse workforce. Management and supervisory excellence in local government demands more than a thorough knowledge of a specialist field. It also requires people skills such as the ability to inspire others, foster cooperation, and resolve conflict. Equally vital is the need to understand and perform a range of practical human resource skills — from recruiting, selecting, training, coaching, work plan development, defining and monitoring standards, dealing with employee and labour relations issues, to getting the best from your staff.

This MATI course brings the best practices of people management to supervisors and managers in local government, using current and relevant situational training in a nurturing and relaxed learning environment. A skill enhancement focus in all facets of the “people management” component of supervisory and management responsibilities is delivered through a combination of formal training, observing human resources professionals, and practical experiential learning with a diverse range of local government participants.

Learn from the Best of Them!

At this MATI course you can expect to:

- Work side by side in small groups with senior local government leaders and human resource professionals, to learn how to deal effectively with a myriad of issues that can arise when dealing with staff.
- Better understand and be able to deal with your “hire to retire” obligations to the staff for whom you are responsible.

- Improve skills with hands-on practice and professional feedback.
- Network and exchange local government experiences and resources.
- Have fun while you are learning!

Receive Professional Feedback from a Registered Psychologist Who Works Closely with Local Government Professionals

- Identify stressful work conversations and plan better responses with positive results.
- Improve skills with hands-on practice and professional feedback.
- Receive one-on-one executive coaching from Registered Psychologist, **Gerrie Waugh** of Capilano University.
