

Bachelor of Music in Jazz Studies

Make music your career

As one of Canada's top training grounds for future professional musicians or music instructors, CapU is where you'll gain the skills to stand out on stage and in the classroom.

Education

The Education program is designed for future music teachers. Combining musical theory with practice, you'll receive mentorship from musicians with decades of experience on stage and in the studio, learning about history and technique and trying your hand at arranging your own compositions.

Performance/Composition

In the Performance/Composition program, you will develop into a versatile performer with comprehensive training in theory, ear training, improvisation, sight singing, and participation in both large and small ensembles. Additionally, you will learn to play various instruments, including guitar/bass, percussion, keyboards, and vocals.

Career paths

- Arranger
- Composer
- Conductor
- Music producer
- Music teacher
