

School of **Allied Health**

Study health care at CapU

In the next 10 years, health care job openings will account for more than 16 per cent* of all new jobs in British Columbia. Gain the skills to make a positive impact in the lives people who need your help as a health care professional.

Train for a career in caring

As a music therapist, health care assistant or rehabilitation assistant, you'll work closely with everyone from children to the elderly, helping them conquer daily challenges. At CapU, you'll participate in focused classes with engaged instructors and master the theoretical knowledge and hands-on skills to succeed.

Gain experience before graduation

Each program in the School of Allied Health offers supervised work practicum placements, so you'll get the opportunity to work alongside experienced health care professionals, ensuring you'll be job-ready when you complete your credential.
