Train to work in film, TV & digital media

The two-year Visual Effects for Film, Streaming & Immersive Media diploma program at Capilano University is the right place to train if you're looking to start a career in Vancouver's growing film, television, gaming and digital media industries.

Learn on state-of-the-art equipment from faculty mentors

Learning from faculty who have decades of experience at their craft, you will study in the Bosa Centre for Film and Animation. The Centre has everything you need to help you gain confidence in your new skills, including virtual reality and motion capture studios, Cintiq drawing tablets, high-speed render farms, professional filmmaking equipment and 3D printers.

Create a standout portfolio & reel

During your training, you'll develop a portfolio and demo reel to showcase your talents and quality work. You'll also plan and organize a grad show with your classmates, where the reels and portfolios will be presented to industry recruiters and executives.

Career paths

- Composer
- Effects artist
- Modelling and texture artist
- Light and render artist
- Rotoscope artist
